Dear Darren

We would just like to say THANK YOU for making our experience with Which Door Ltd pleasant and enjoyable. Everything was explained to us with a step-by-step process which was easy to follow and you were always there at the end of the phone when ever we needed you. You really got the feel of what our nursery is about and both the children and parents love our new site. The way you incorporated the stepping stones down the side of the page to tie in with our name was so creative.

We couldn't believe the price you were offering compared to most other website design companies. It was an opportunity not to be missed.

Thanks again for everything you have done for us. We are sure to recommend you in the future.

Kind Regards

All staff and children at Stepping Stones Nursery
(Liverpool).
